

Attachment 2

Passenger Notification Letter

According to the requirements of the General Administration of Customs of the P.R.C. about the 4th edition of *Entry/Exit Health Declaration Form of the P.R.C*, all the passengers should truthfully report the relevant information, including whether you have taken medications for fever and cold within the past 72 hours.

The guideline *Opinions on Punishing Illegal Activities and Crimes of Obstructing Frontier Health and Quarantine by Rules of Law* jointly released by the Supreme People's Court, the Supreme People's Procuratorate, the Ministry of Public Security and the Ministry of Justice of the P.R.C. clearly states that, confirmed or suspected patients of COVID-19 entering public place or using public transportation, which cause the spread of the disease, is a crime against epidemic prevention and control measures, and will be convicted and punished according to Crimes of Endangering Public Security by Dangerous Means.

Confirmed patient, suspected patient and close contacts of the COVID-19, and passengers with symptoms like fever, dry cough,

fatigue and headache shall not travel by plane. Passengers who have entered the Chinese border within the past 14 days shall obey the arrangement of flight attendants and remain seated in a designated area or isolation area after boarding. After arrival at Beijing, separate urine and blood tests are required.

Beijing Municipal Government announces that from 0:00 on 16th Mar, 2020, passengers entering Beijing from abroad shall be quarantined under centralized medical observation for 14 days. Costs incurred during the centralized observation shall be borne by the quarantined persons themselves. For persons who falsify the information, conceal the illness and cause the spread of the epidemic, liabilities shall be investigated and affixed in accordance with relevant laws and regulations. The record will be incorporated into the Credit System.

Kindly remind that in view of the large quantity of recent arrivals, extra time will be needed for the epidemic screening. Therefore, the entry and transit may take longer time. Please get prepared and bring necessities like food, medicines, children's products, etc.

March 2020
