[General] Introducing a wider side panel

Visual changes are introduced to side bar in Sabre Red applications.

The vertical area containing side panel launcher icons (e.g., "Trip Summary", "Applications", etc.) has been expanded to accommodate text descriptions of launchers and graphical ads in its lower part.

If the agency takes advantage of Red Apps, Agency Administrators can expose shortcuts to Red Apps of their choice in the new, expanded side bar. See more details in [SAN 17269](#).

Sabre Red 360: The legacy side bar with HELPER APPS, RED APPS and graphical ads sections has been removed. All the items available there were moved to other parts of the application: either Applications or Admin panels.
