### [SHOP FLIGHTS & NDC AT WP] BAGGAGE INFORMATION REFINEMENT

Information pertaining to checked bags is now visible on the upsell fare card view.

The tooltip has been enhanced to display baggage details per passenger type and by flight segment for both Sabre and NDC content.

## [SERVICING] NEW "CANCEL" WORKFLOW

With this release we are introducing a new "cancel" workflow to support the refund, void and retain of both Sabre and NDC content within the same workflow. The new workflow can be launched by clicking on the new "Cancel" option found in the Tickets section menu icon from the Trip Summary panel.

This new Sabre Red 360 cancel workflow provides the agent an easy way cancel ticket and electronic miscellaneous document (EMD) within the void period or outside of the void period (refund) when the traveler needs to cancel the existing ticketed air reservation for both Sabre and NDC content, removing the need to use separate workflows to service a booking from each content source.

A user guide that details all of the features of this new workflow can be found on Sabre Central under *Support > Additional Support Resources > Libraries > Product Release Notes & Related Information > Sabre Red 360 > Quick Reference Guides.*

Agencies can also enable/disable the new workflow from the Trip Summary panel in the agency configuration of Air Servicing Cancel via the Web Agency Admin Tool. (Air Servicing Cancel option in WAAT).

The screenshot displays the Sabre Red 360 interface for a trip summary. The main area shows traveler information for RON, DIANA (2 passengers) and flight details for SYDNEY TO BRISBANE (TUESDAY, APRIL 8) and BRISBANE TO SYDNEY (THURSDAY, APRIL 24). The right-hand panel, titled "Trip Summary", lists the itinerary and tickets. A red box highlights the "Cancel" button next to the first ticket entry: "TO 0815757335359 XX RON/D 3YAB\*ARM 28 Feb".

## [SHOP FLIGHTS] FILTERS REFINEMENT

The filters in Shop Flights have been updated to align with the filters used in the hotels & cars experience and to better enable filtering of the shop results for each leg of the journey.

The new filter view reflects which filters are in use.

The screenshot shows the Sabre Shop Flights interface. At the top, there are search criteria: 'FLIGHTS', 'CDG - PARIS, PA...', 'AMS - AMSTER...', '08MAY2025', and '23MAY2025'. Below this is a filter bar with options: '1 stop', 'Carriers', '2 times', 'Under 11h 50min', 'Fare source', and 'Airports'. The main content area is titled 'Choose flight to Amsterdam (AMS)' and lists four flight options from Air France (AF) with details on flight numbers, times, durations, stops, and prices.

Flight	Carrier	Class	Time	Duration	Stops	Price
AF 7440, AF/KL 8302	Air France	Economy Standard	9:55 PM - 8:15 AM	10h 20min	1 Stop (BOD)	USD 319.00
AF 7370, AF/KL 8316	Air France	Economy Standard	8:50 PM - 7:50 AM	11h 00min	1 Stop (LYS)	USD 319.90
AF 7412, AF/KL 3118	Air France	Economy Standard	9:35 PM - 8:25 AM	10h 50min	1 Stop (TLS)	USD 320.10
AF 7342, AF/KL 3180	Air France	Economy Standard	9:35 PM - 8:40 AM	11h 05min	1 Stop	USD 320.10

## [NDC] NAME CHANGE POST DOCUMENT ISSUANCE

This feature enables name change after fulfilment, supporting the scenario when the NDC airline automatically issues a new ticket when a name change is made by the agent. When an agent edits the traveler name and the airline issues the new ticket, the agent will be presented with a new success pop-up to confirm that the name change and new ticket were successful.

The screenshot shows a success pop-up titled 'Update ticket'. It contains a green checkmark icon and the text: 'Name change and update ticket successful' and 'Order ID: AF057AV17C2EB'. At the bottom right, there are two buttons: 'CLOSE' and 'DISPLAY TICKETS'.

## [NDC] NEW EXCHANGE SHOP & BOOK – CABIN TYPE QUALIFIER

Agents can now specify a cabin type when processing an NDC exchange (re-shop) request. The new cabin qualifier is available for each leg of the journey.

A secondary qualifier, “shop selected cabin(s) only” has also been added to the Optional Qualifiers section so that the exchange (re-shop) results return for the cabin selected in the request.

Both of these new optional qualifiers are **optional** and can be found in the NDC exchange shop and book workflow.

### [SHOP FLIGHTS] FARE CARD – NEW ICONS

To help further enhance the user experience, icons for checked bags, changeability, refundability and seat selection have been added to the fare cards in Shop Flights and in the NDC in pricing flow.

--	--	---	---

### [SHOP FLIGHTS] BOOKING FLOW USER EXPERIENCE

The user experience in the Shop Flights leg has been improved. Agents can now easily identify at which step of the booking process they are in with the option to go back to the previous leg if desired.

The screenshot shows the Sabre Shop Flights interface for a multi-city itinerary: SYD > LAX > NYC > SYD, dated 20 May - 26 May. The user is currently at the 'Choose flight to Los Angeles (LAX)' step. The interface includes a top navigation bar with 'Profile', 'Air', 'Hotel', 'Car', 'PNR', and 'Proposal' tabs. Below this is a dark header with 'FLIGHTS SYD > LAX > NYC > SYD 20 May - 26 May' and an 'EDIT' button. A filter bar contains options for 'All filters', 'Stops', 'Carriers', 'Times', 'Duration', 'Fare source', and 'Airports', along with a 'SORT BY' dropdown. The main content area displays two flight options:

Flight	Carrier	Class	Time	Duration	Stops	Fare
DL 40	Delta Air Lines	359	9:25 AM - 6:10 AM	13h 45min	Nonstop	AUD 2711.88
QF/AA 4111	Qantas	77W	9:10 AM - 6:00 AM	13h 50min	Nonstop	AUD 3483.67

Each flight card includes a 'Details' link and a 'Seats' link. The fare is labeled as 'SABRE Basic Economy from' and 'Multi city'.

The screenshot shows the Sabre Shop Flights interface for the same itinerary, but the user has moved to the 'Choose flight to New York (NYC)' step. The 'SYD > LAX' link is highlighted, and a dropdown menu is open, showing flight details for the selected leg: 'Tue, 20 May', '9:25 AM - 6:10 AM', 'Nonstop 13h 45min', and 'Operated by DL'. The main content area displays two flight options:

Flight	Carrier	Class	Time	Duration	Stops	Fare
DL 934	Delta Air Lines	339	6:00 AM - 2:29 PM	5h 29min	Nonstop	AUD 2561.88
(Unlabeled)	(Unlabeled)	(Unlabeled)	2:10 PM - 10:36 PM	5h 26min	Nonstop	AUD 2561.88

The fare for the second flight is labeled as 'SABRE Basic Economy from' and 'Multi city'. A 'Change flight' link is visible in the dropdown menu.

### [SHOP FLIGHTS & SHOP FARES] TOOLTIP UPDATE FOR PRIVATE FARES

The private fare tooltip has been enhanced and now displays the account code as well as the previous private fare message. If more than one Account Code applies per given fare all of them will be listed in the tooltip.

This changes applies to the main fare view and to the fare card in the upsells display and in the combine by leg screens in Shop Flights and in the shop response display in Shop Fares.

## Hotel reservation form - Pre-paid, Deposit rate warning

With this release, Hotel reservation form will have additional messaging on the top to indicate that the selected rate is pre-paid or requires deposit. This information will be added to the already existing messaging for non-refundable rate. The message will also contain additional information, as provided by the supplier, on the pre-payment rules or cancellation details. This is to better inform the user on the rate restrictions that will apply after the booking is made.

**Hotel Reservation** x

**⚠ Pre-paid rate**  
This payment will be processed in AU if using MasterCard and Visa. This is a pre-paid rate and the entire amount will be charged at the time of booking.

# TRIP PROPOSAL

---

## NDC ENABLEMENT FOR ALL TRIP PROPOSAL USERS.

With this release, we have enabled Trip proposal creation from NDC offers returned in the shopping and pricing paths. Previously, support for NDC had to be configured by role upon request.

# OTHER

---

## UPDATED ENCODE/DECODE SOURCES

Encode/Decode tables are updated with latest changes.

# SDK

---

## AGENTPROFILESERVICE ENHANCEMENT

Agent profile service has been extended with the "getUsername" method. This method returns a formatted username, displaying the first letter of the user's first name followed by their surname (e.g., "J SMITH").

## DEFECTS FIXED

Reference	Description
TNNSRW-3737	[TNNSRW-3737] COMMAND WPB14AUG21 COULD NOT BE PROCESSED SUCCESSFULLY // not occurring in SNTE
TNNSRW-6160	[TNNSRW-6160] Graphical automated exchange returns "Unable to process" after spinning for a few minutes
TNNSRW-6267	[TNNSRW-6267] [NDC][AF/KL] No carry on baggage information after order creation and fulfillment
TNNSRW-6347	[TNNSRW-6347] LO NDC Error Flown flight must be included in "change" or "kept" segment in Exchange Shop// 08456347

## HOW TO VERIFY THE UPDATE

---

Updates occur by either manually “checking for updates” under “Help” or with no intervention on your part 20 minutes after starting up, with no impact to your workflow. Please note the update will not go into effect until you have restarted your system. To validate that you have implemented the update, you may type in STAT command and in a response value of “Release Version” field will indicate actual version of the system.

## SYSTEM REQUIREMENTS/PREREQUISITES

---

The Sabre® Red™ 360 is a managed client application that is downloaded and installed in a variety of configurations. The Sabre technical development and quality assurance teams have tested various scenarios to determine minimum hardware specifications for the end user’s workstation.

An installation of Sabre® Red™ 360 on a workstation that does not meet these specifications may not function properly and cannot be supported by Sabre.

## OPERATING SYSTEM SOFTWARE

---

We support the installation and operation of Sabre Red 360 on a workstation that meets one of the following specifications:

- Microsoft Windows 10 – 32 and 64-bit
- Microsoft Windows 11
- Microsoft Windows Server 2016, 2019, 2022
  - Basic support for Terminal Services environment including Citrix
- macOS Ventura or later (13.7.2 or later)
  - We recommend 64-bit Windows 10 and macOS Sequoia (version 15)

## HARDWARE SPECIFICATIONS

---

Processor:

- Minimum:
  - Intel Core i3 Dual-core processor with 3.3 GHz (or AMD equivalent)
- Recommended:
  - Intel Core i5 Dual-core processor with 3.2 GHz (or AMD equivalent)
  - Apple silicon (Apple-designed chip based on ARM architecture)
- Memory:  
3.5 GB RAM for 32 bit OS or 8 GB RAM for 64 bit OS.

- 1.6 GB of free disk space for the first user on a standard desktop installation, and 240 MB for each additional user. Additional storage may be required for other agency applications.
- Monitor: 1366x768 is highly recommended. Monitors with lower resolution will work, but the user experience will be sub-optimal.

## PERMISSIONS AND RIGHTS

---

Sabre Red 360 requires “Full” rights or permissions to the installation and user directories that it will be installed too. Additional information on permissions, directory options, and locations can be found on the Advanced Installation User guide

## NETWORK

  - Sabre Red Connectivity Guide for PROD – May 2024
  - Sabre Red Connectivity Guide for CERT – May 2024

## EXPECTED SYSTEM DOWN TIME

---

You will not experience any down time because of this release. This release update will download in the background. After it finishes downloading to your local workstation you will be presented with the option to restart now or later.

## AGENCY ADMIN TOOL

---

By utilizing the Agency Admin Tool, you are leveraging the flexibility of the Sabre Red 360. You have control over what tools and features your users can see and use within the Sabre Red 360, and you can

control the timing of update delivery to your users. This powerful control over the Sabre Red 360 supports the efficiency of your users and your operations.

The date of the release is of importance if you are utilizing the Agency Admin Tool to lock down a set of users to control when the update is delivered to them. The locking function of the Agency Admin Tool is designed to allow you to lock down a set of users on the last version of the Sabre Red 360, and leave other targeted users unlocked for testing purposes, providing the utmost flexibility to test the update prior to a wide deployment in your environment.

To lock these users, you need to complete a few critical steps as the agency admin, no later than day before release date to ensure these users do not receive the update on the day of release.

- Login to Sabre Red Workspace
- Access the Agency Admin Tool and lock all users at your agency from receiving the update.

For further documentation and additional information on the Agency Admin Tool as well as details on the release, please visit the Sabre Red 360 community on Sabre Central.

## CONTACT INFORMATION

---

If you need help, contact the Sabre Help Desk using web Callback method.

- Access Sabre Central and navigate to:
